Application for a trainee place "stewardess"

Dear Sirs,

I am pupil of a secondary school in the last school year.  
With the end of my school time in the summer 2005 I would like very with pleasure to become stewardess.

This profession is my life because I love people and languages and travel in addition with pleasure.

As I heard, your airline offers the possibility to suitable applicants for such a training facility. I would like to use this chance because I mean to be talented for that.

My preliminary notes are registered in the enclosed report.  
From nature I am a friendly human, in addition also flexible and I work very with pleasure in the team.

I would estimate an interview very much. You reach me under above postal address.

Yours truly,

Christiane Heise
